

FACIAL SERVICES

DiamondGLOW®

Experience the perfect fusion of luxury and results with the DiamondGlow® Facial. This advanced treatment goes beyond traditional facials by using a patented recessed diamond tip wand to deeply exfoliate, cleanse, and infuse professional grade serums all in one, seamless step. Whether you're new to facials or seeking a high performance glow, DiamondGlow® delivers visibly smoother, brighter, and more radiant skin after just one session. For optimal results, we recommend a series of treatments – ideally once every 4 weeks to maintain your glow and support long term skin health. Suitable for all skin types and perfect for anyone ready to elevate their skincare routine.

✦ Ask about pairing dermaplaning for enhanced results.

DermaPROFILE TREATMENT

This personalized facial begins with a professional skin analysis to assess your skin's current condition and needs. Ideal for all skin types, the treatment includes deep cleansing, exfoliation, and steam to purify and prepare the skin. A tension relieving facial massage soothes stress and promotes circulation, followed by a customized mask selected to target your specific concerns – from hydration and dullness to fine lines and texture. This treatment supports long term skin health, radiance, and resilience.

✦ Recommended every 2 to 4 weeks for optimal results.

HYDRO REFINING FACIAL

A high-tech solution for multiple skin concerns, the Hydro Refining Facial delivers the benefits of microdermabrasion using fluid-based technology instead of traditional aluminum oxide crystals. This results-oriented treatment combines deep cleansing, a gentle acid peel, painless extractions, and an infusion of customized serums rich in antioxidants and hydrating hyaluronic acid. Skin is left smoother, clearer, and deeply hydrated with no downtime.

✦ For best results, avoid sun exposure for 24 hours before and after treatment.

FACIAL ADD ONS:

- Eco-Paraffin Hand Treatment
- SkinMedica Instant Bright Eye Mask
- SkinMedica Moisturizing Mask
- Anti-Aging Hand Treatment

DermaPlane FACIAL

Reveal a polished, smooth, and radiant complexion with our Dermaplane Facial. Performed by a Dermaplane Pro-certified aesthetician, this treatment uses a sterile surgical grade tool and precise manual exfoliation to gently remove surface debris and the top layer of dead skin cells. Eliminating the dull buildup and fine vellus hair ("peach fuzz"), enhances skin texture and allows for deeper, more even absorption of treatment products. The service concludes with a customized mask, leaving you glowing and refreshed.

✦ Enhance results with a paired enzyme peel!

VI PEEL by Vitality Institute

Experience transformative skin renewal with the VI Peel – a medium-depth chemical peel that penetrates beyond the surface to reach the dermis, delivering powerful results with minimal discomfort. Our certified professionals will select from six uniquely formulated VI Peel treatments to target your specific concerns, including pigmentation, sun damage, acne and scarring, and visible signs of aging such as fine lines and wrinkles. Safe for all skin types and tones, this painless peel delivers noticeable improvement in as little as 7 days.

✦ For optimal results, a series of three treatments is recommended.

Rejuvenize Peel by Skin Medica

Target the visible signs of aging with the Rejuvenize Peel – a powerful, medium-depth chemical peel designed to improve the appearance of fine lines, wrinkles, and rough texture. Formulated by SkinMedica, this advanced treatment penetrates deeply to accelerate skin renewal and reveal a smoother, more radiant complexion.

Noticeable results can be seen after just one peel, with continued improvement over time.

✦ For compelling, long-lasting results, a series of 3 to 6 treatments is recommended.

Salicylic Acid or Glycolic Peel

Refresh and renew your skin with a targeted chemical exfoliation using either salicylic or glycolic acid – expertly selected based on your skin's unique needs. These professional-grade peels work by dissolving dead skin cells on the surface, revealing a healthier, more radiant complexion underneath. Ideal for addressing dark spots, fine lines, uneven texture, and acne, this treatment promotes smoother, clearer, and more youthful-looking skin with minimal downtime. Salicylic Acid – best for oily, acne-prone skin or congestion
Glycolic Acid – ideal for dry, dull, or aging skin with pigmentation concerns

✦ Can be performed as a single refresh or in a series for deeper correction.

OUR PHILOSOPHY

Vibrant, radiant, even-toned skin is not only beautiful, it suggests a healthy lifestyle and someone who cares about how they look. At Venice Avenue Dermatology we offer a diverse and results-driven selection of skin care treatments and therapies personalized to each guest. Let our expert aestheticians assess your specific skin care needs to create a fully customized service.

BRANDS WE TRUST

We choose our cosmetic products wisely. If we love them, we know you'll love them, too. That's why we proudly utilize and offer our favorite items from Alastin, Vitality, and SkinMedica.
